

“Moving On”

SS-04-5.2.3 Students will compare change over time in communication, technology, transportation, and education in Kentucky.

SS-05-5.2.3 Students will compare changes over time in communication, technology, transportation and education.

Early Kentuckians used several different methods to get around. The museum has a buggy, a car, a wagon, and an airplane that were used to get around Kentucky and possibly travel to other states as well. How has transportation changed over time? Choose two of the following to complete:

- **Tell your parents how you think transportation has changed over the years.**
- **Calculate how long it would take to get to your home from school riding in the REO car.**
- **Interview someone who has flown on a plane to see where they went, how long it took, and why they flew. Add other questions you might like to ask.**
- **Write about how it would feel to ride in a car for the first time.**
- **Imagine what transportation will be like in the future and write about it.**
